Jacinto Goncalves*

Residents and Families

SUMMER WEATHER:

Reminder: The “hot and humid days of summer” have finally arrived. High humidex’s increases the risk of heat related illnesses.

The Home will be installing air conditioning units throughout the Home to help keep areas more comfortable. This will be done once the window cleaning is complete (end of May/ early June) When the temperature and humidex are in certain danger zones, it may be necessary for routines, activity programs, and menu items to be changed to accommodate and to minimize the potential risk of heat stroke or heat exhaustion.

Families are encouraged to help us to ensure additional fluids are being taken by the resident; to take that sweater off that they just love to have on, and to provide light weight summer clothing. When visiting if you notice any change in cognitive or physical status, please report to the Charge Nurse immediately,

Thank you.
