MINISTRY OF HEALTH –FOLLOW UP INSPECTION
As a follow up to the January 2018 newsletter, we had indicated that the Ministry was completing their review of the previous Resident Quality Inspection where a “cease of admission order” was in place until Compliance areas were corrected. I am pleased to say that all Compliance orders were reviewed during the inspection commencing December 6, 2017 and ending Dec 18, 2017. Tyndall was notified on December 20, 2017 that **all areas were found to be in compliance at this current time and the Cease of Admission order was lifted.** We commend the hard work of our staff and we will continue to work proactively to ensure the processes implemented are maintained and improved.

We would like to thank residents and families for your ongoing support. Our goal is to ensure that our residents and families are provided the highest quality of care and service in a dignified and respectful manner.

Upon receipt the Public Report will be posted as per the requirement.

We are planning a General Family meeting March 29, 2018 (tentative date) at which time we will review the final report.
