**"Our Canada",  
Did you know!**

- ❖ Canada is the second largest country in the world.
- ❖ Canada has the longest coastline of any country in the world - 151,600 miles.
- ❖ Wasaga Beach is the longest fresh water beach in the world.
- ❖ Manitoulin Island is the largest freshwater island in the world.
- ❖ The highest tides in the world occur in the Bay of Fundy in New Brunswick.
- ❖ The longest highway in the world is the Trans-Canada Highway – 4,725 miles in length.
- ❖ Half the country is covered with forests, which should come as no surprise considering 1/10<sup>th</sup> of the worlds forests are here.

Well summer is finally here and with it some beautiful days.

Please be sure to keep your windows closed when the air conditioning is on. This will help to keep the humidity down and the air conditioner will not have to work so hard to keep up.

If you find your room is too cool/or too hot please go to the nursing station and have them note it in the maintenance book so that the temperature in your room can be adjusted.

## ENVIRONMENTAL DEPARTMENT

Hello from the  
Environmental Department

Hope you are enjoying our lovely weather. I have planted our entry pots and will be planting more in the courtyards. I hope you will enjoy them as you walk around the facility!

It's that time for pesky pests. Please remember to keep all food in baggies or sealed containers. Ants will come with just a small amount of crumbs left on a table or floor.

On another note, any maintenance requests need to be reported a staff member know so they can record it in our maintenance books.

We have Michael for our summer student, he will be outside mowing lawns and gardening. If you see him when you are out and about say Hi to him.
